### **Petco Love and the Charlottesville-Albemarle SPCA Aim to Stop the Spread of Deadly Preventable Diseases Through Free Pet Vaccination Event**

*As Part of Petco Love's Initiative to Provide 1 Million Free Pet Vaccines, the Charlottesville-Albemarle SPCA Will Host a Vaccine Event on February 1 in the Southwood Community of Charlottesville*

**Charlottesville, VA (January 28, 2022)** – The Charlottesville-Albemarle SPCA will provide free vaccinations for Southwood Community area pets. The free vaccines are made possible through Petco Love's new national vaccination initiative, which is providing 1 million free pet vaccines to its existing animal welfare partners, including the Charlottesville-Albemarle SPCA for family pets in need.

Parvovirus and distemper in dogs, and panleukopenia in cats, are some of the most prevalent deadly diseases impacting pets that are preventable with a simple vaccine. An estimated 30% of pet parents do not take their pet to a veterinarian annually for preventative care. To address this critical need, the Charlottesville-Albemarle SPCA and Petco Love are partnering to make pet vaccines free and accessible in an effort to ensure the health and wellness of our beloved pets.

The Charlottesville-Albemarle SPCA aims to vaccinate 300 pets through this effort. The SPCA's Compassionate Care Vaccination Clinic will be held at Southwood Community Center (387 Hickory St, Charlottesville, VA 22902) from 11 am to 3 pm on Tuesday, February 1. It will be first-come, first-served with limited availability, so come early. Clients must show proof of public assistance to qualify for care. Examples of public assistance include, but are not limited to, EBT Card, Proof of disability, Medicaid, SNAP, Unemployment, or WIC.

Vaccines distributed through the Petco Love initiative will be the DAPPv Canine and HCP Feline vaccines. Microchipping, rabies vaccinations and bordetella vaccinations will also be available at low cost.

"We're grateful to Petco Love for the opportunity to make these important vaccines accessible to those in our community," said Angie Gunter, Chief Executive Officer of the Charlottesville-Albemarle SPCA.

"We were able to provide 70 vaccines through our clinic last month and we're excited to offer this free resource once again."

"It is heartbreaking when any pet suffers or dies from a disease that could have been prevented. It is further exacerbated when unvaccinated pets come into busy shelter kennels, where these deadly

diseases can spread quickly, resulting in multiple deaths, skyrocketing expenses, and hindering saving pet lives,” said Susanne Kogut, Petco Love President. “By creating greater awareness and making this crucial preventative care more accessible to pets not currently receiving these lifesaving vaccines, we can prevent the dangerous spread of disease.”
